

9-4-2018

At this time the Rock Slide project is complete. However we are waiting for Nemont to conduct repairs to their fiber optic line within the slide area. They are estimating to be completed with this work by the end of this week. Our Road and Bridge Department will then need to rebuild the area where all work was conducted. This is estimated to take 2 days or less. We are now estimating that the opening of the Stillwater River Road to through traffic will be Thursday Sept. 13. Thank you in advance for your patience and help with this.
