RE: Hersrud Road Speed Limit Study

Dear Commissioners,

The Stillwater County Road and Bridge Department completed a speed study on Hersrud Road. There was a traffic count of 403 cars and 76 trucks over the course of six days. The average speed was 22.2 MPH and 43.9 MPH was the highest speed.

The Stillwater County Road and Bridge Department Superintendent recommends to lower the Hersrud Road speed limit to 35 MPH.

Thank you for your consideration of this recommendation.
Sincerely,

Stillwater County Road & Bridge Department
