As was announced in the media several weeks ago, FEMA awarded Stillwater County a grant to help with the cost of the Stillwater River Road rockslide situation. The rockslide project has an estimated price tag of roughly \$2.5 million, and the grant will cover approximately \$1.9 of that amount.

As the contracting company is currently working on emergency projects in California, it is anticipated that work will begin at the end of July. State DES Hazard Mitigation Officer Nadene Wadsworth will be visiting Stillwater County on June 15th, 2017, at 1:00 at the rockslide area to formally award the grant to the County. The public is invited to attend the presentation of the award.

As dates are firmed up, the County will again update.

- (a) The previous email mentioned the grant will cover approximately \$1.9. That number should have read \$1.9 million.**
- (b) The presentation of the FEMA grant will be on the south-side of the rockslide (the Nye side)**
